BUSINESS SHREDDERS

↳ MODULAR CONVEYOR BELT SYSTEM

optional accessory transports shredded material to an external container | eliminates need to change shred bags | easy to install—simply roll into place, close door, and lock | electric belt drive is controlled by the shredder electronics | electrically secured locking system | mounted on heavy duty casters

Dimensions (D x W x H): 74 ¾ x 27 ¼ x 45 ¾ inches, Shipping weight: 359 lbs.

With the modular conveyor belt system, the capacity of the 5009 is limited only by the size of the external shred container.
