DATA DESTROYER

PD-5 IRONCLAD

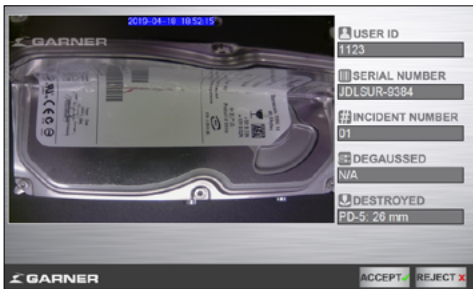

Physical Destroyer with Integrated Auditing System

Two Verification Screens

1. Before destruction

2. After destruction

Verified Destruction

In just seconds, the PD-5 hard drive destroyer with IRONCLAD verification, completely destroys hard drives while also verifying and documenting the destruction. Garner's exclusive IRONCLAD system captures a JPG image of the media and generates a proof-of-destruction certificate for audit and archival purposes.

Features and Benefits

- Destroys and verifies up to 180 pieces of media per hour
- Tracks and stores media serial numbers, user ID, witness ID, and date in a password-protected system
- Provides proof media was destroyed by capturing a JPG image of the hard drive before and after destruction
- Informs operator of destruction results with status of crush depth after each cycle
- Generates Certificates of Destruction with images of the media
- Generates exportable JPG images and destruction results for audit and archival purposes in PDF, CSV, and Excel file formats
- IRONCLAD export options: Flash, ethernet, or optional optical media burner
- Operates in 2 modes: "Verification Mode" with prompts for new operators; and "Processing Mode" for faster processing
- TAA compliant

PD-5 IRONCLAD® Includes

- PD-5 NSA-listed hard drive destroyer with 10+ tons of force bends, breaks, and mangles hard drives, including data platters and other internal components, preventing data recovery
- Garner's exclusive IRONCLAD Erasure and Destruction Verification Report System
 - » Image capture system
 - » Touchscreen control head
 - » Report generating software
 - » Scanner
