

PROTON[®] PDS-88 SOLID STATE[™] SHREDDER

The PDS 88 Solid State[™] Shredder safeguards data by shredding SSD and flash-based media into small variable-sized particles. Its low profile and quiet operation (65 dB) make it ideal for use in the office or data center environment.

SPECIFICATIONS

Particle Size:	0.598"L x 0.15"W (15.2mm x 3.8mm)
Feed Opening:	7" (17.78 cm)
Capacity/hour:	75-80 Standard SSDs 500 USB sticks/drives 100 cell phones 1500 CD/DVDs
Motor:	2.6 HP (1.94 kW)
Power:	120V/60Hz or 220-240V/50Hz (factory configurable)
Collection Volume:	14 gallons (53 liters)
Dimensions:	24"D x 37.5"H x 22.6"W (60.96cm x 95.25cm x 57.4cm)
Weight:	260 lbs (117.93 kg)
Media Destroyed:	Solid state drives (SSD), smart phones, flash drives, SSHD controller boards, mini tablets, CD/DVD, credit cards, etc. <i>Note: Always remove batteries before shredding.</i> <i>This unit does not accept hard disk drives (HDD).</i>

FEATURES & BENEFITS

- Ensures all memory chips on SSD and flash-based media are destroyed
- Allows compliance with recognized security standards and regulations, including **NIST, HIPAA, FACTA, PCI DSS, GLBA, PIPEDA, IRS, GDPR**, etc.
- Small footprint and quiet operation suitable for any office or data center environment
- No special electrical required; plugs into standard 20 Amp wall outlet (dedicated 20A line required)
- Easy-to-use control panel with status display
- Cutting head features claw-like cutting cylinders that pull materials into the unit
- Auto-reverse feature ensures complete destruction and prevents jams
- Particles collected in easy to remove residue bin
- CE Certified; ships with CE mark
- Warranty: 1-year parts, 90 day labor
